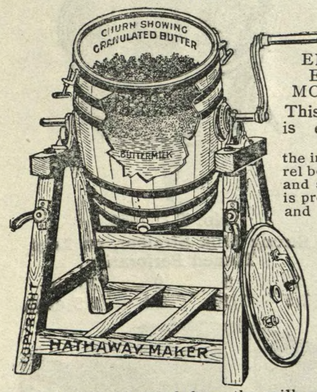
HATHAWAY'S SHAKESPERIAN END OVER END ECCENTRIC MOTION CHURN



This celebrated Churn is entirely without beaters, the interior of the Barrel being perfectly clean and smooth. The Butter is produced by the sharp and continual concussion caused by the cream falling from end to end, and comes in small granules, the grains of Butter being separated from the milk or cream and kept separate from each other until ready for making up. The whole of the Butter is extracted from the milk orcream and can be churned, washed, salted, and worked in the Churn with ut the application of the hand. The Butter, as shown in the Granulated form in Churn, is ready to e removed to the Butter Worker for making up.

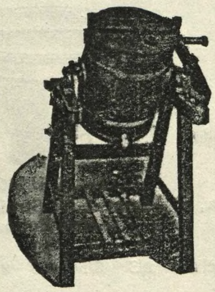
BRADFORD'S NEW PATENT SINGLE-HANDLE FASTENER,

For "Diaphragm" and "Endundend" Churns.

Awarded Silver Medal, Royal Agricultural Society of England, 1910.



This New Patent Lid Fastener marks a further step towards simplification and speed in fittings connected with barrel Churns, one end of the barrel of which is formed by the lid of the Churn. A rod, with a cam at either end, is attached to the lid, and when the two swivel links which are attached to the Churn are placed over the cam a single movement of the handle completes the fastening of the lid and ensures a perfect and reliable joint. The lid is unfastened and removed with equal facility. Our "Diaphragm" Churn is the original Two-Fastener Churn. This fastener is a further improvement, and is rightly called a Single-Handle Fastener.

The Churn here illustrated is fitted with the 'Diaphragm' Dash. The most Simple and Latest in Churn Fasteners.

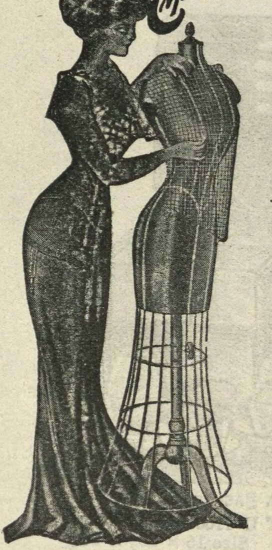
Good Figure Experts



This lady is chalk marking through the muslin over the patent seam lines; when all are chalked over, the muslin is cut out after allowing ¾ in. for turnings, then taken off the bust. When pinned together forms an absolutely perfect fitting pattern to fit owner, and all fear of spoiling the material avoided. These patent Seam Guides fitted to any bust

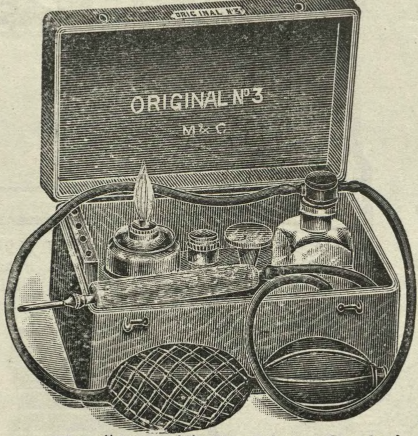
No. T U 366.
Improved Foot-Bellows. Constructed so that the foot-board is raised automatically by the weight of the heel. Further improvements have been made so that the bellows will pass a greater supply of air than hitherto. With these improvements they will be found useful to those who do much Poker Work, as they leave both hands free.
Price, complete 4/11 & 5/11



The "Original" No. 3 has a Standard "A" platinum point, best bellows; the box is made of polished cherry wood.
Price, complete with platinum point (No. 276), 15/11 each. Extra points, 8/4 each.
Also No. T U 1, extra quality, Price 20/6
Note.—Our Machines can also be supplied with Horn-shaped Points, if preferred, at same prices.

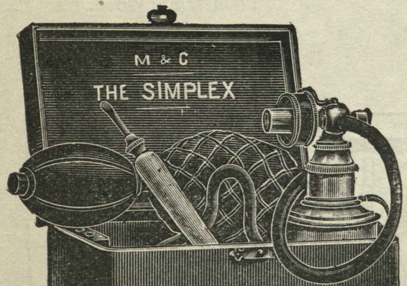
POKER SUNDRIES.

Rubber Bellows. (Best Quality.) (Tubing for connecting cork handles extra).

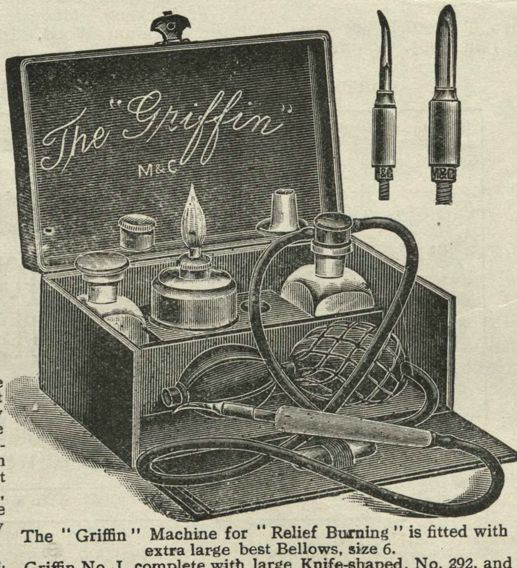
No. 338/3. Bellows, usual size, 14 in. Tubing, 1/6½ and 1/11½ each. No. 338/5, Rubber Bellows, large size for Relief Poker Work, 14 in. Tubing, 2/9 each. No. 338/6, Ditto, 3/6. No. 360/7, Bellows with 54 in. Tubing for foot-bellows, 4/6 each.
Rubber Tubing to connect cork handle.
No. 357/36. Tubing only, 36 in. long, 0/5 each.



The "Simplex" is so constructed that the Benzoline which is required to keep the Platinum Point red-hot is utilized also for heating the Point at first, thereby dispensing with the Spirit Lamp used with the "Original." The flame is blue and perfectly smokeless. By turning the round Vulcanite Disc to certain marks, the Benzoline Gas supplies the Lamp, or it may be directed, by a turn, into the heated Point, and keeps this red-hot. By another turn, all escape from the bottle is shut off, and this can now be safely packed away and carried in any position.

The "Simplex" has a well-finished Nickeled Bottle.

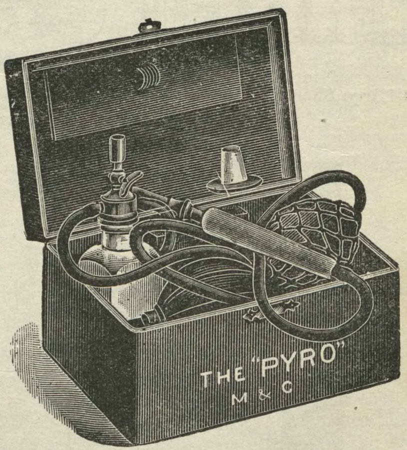
The "Simplex," with Standard "A" Point (No. 276) complete, 22/6 each. Extra Points for the "Simplex," 8/4 each.



The "Griffin" Machine for "Relief Burning" is fitted with extra large best Bellows, size 6.

Griffin No. I, complete with large Knife-shaped, No. 292, and Modelling, No. 297, Platinum Points, 39/9 each.

Griffin No. III, with one Platinum Point (large Bent Knife), 27/6 each.



The "Pyro" is a very handy machine, with an exceedingly simple flame or burner-top. The flame-top, which takes the place of the Spirit Lamp in the "Original" machines, is worked exactly like a gas jet, and burns entirely without smell. The Platinum Point is the Standard quality, as fitted to "Original" No. 2 or 3, and the "Simplex" machine. The "Pyro" machine comes cheaper than the "Simplex" on account of the simplicity of the flame-top.

The "Pyro," complete with Standard "A" Point (No. 276), 16/10 each. Extra Points, 8/4 each.

The "Pyro" flame-top (No. 340) can be supplied separately and will fit any of the Glass Bottles supplied with our machines. Price 1/11½ each.

ELECTRICAL ENGINEERING DEPARTMENT.

MAINTENANCE.

The undeniable advantages to be derived from having Installation always under the care of an experienced electrician are so obvious that it is unnecessary to further comment upon them ; Harrods wish to impress upon their customers that they have made the Maintenance of existing Electric Light Installations a very special feature of their business.

In consideration of a small fixed annual charge they are prepared to assume the entire maintenance of an Installation :—To replace all broken or worn-out Incandescent Lamps ; to replace or repair all damaged or broken Shades, Switches, Fuses, Plugs, etc., etc. ; to make personal periodical surveys and examinations, and generally to guarantee keeping the entire Installation in efficient working order.

A representative will be pleased to wait upon customers at any time and to submit estimates of charges for this class of work.

Harrods are also prepared to undertake the entire Maintenance of Arc Lamps, which includes the Cleaning and Trimming of same, as and when required.

Estimates given for all kinds of Electrical work on the shortest notice.

When the fire is left to die out overnight any risk from sparks is avoided by closing all the doors.

In summer, when the fire is off, the grate entirely closed presents an ornamental appearance, preferable to any kind of fire-screen. The special ventilator beneath canopy efficiently ventilates the room.

When in ordinary use, as shown above, the Most Perfect Form of Fireplace is obtained, giving

GREATER HEAT, with less fuel, than in any other Grate, and the full benefit of the fire is felt in the room.

A dull or smoky Fire can be instantly brightened by closing the top Regulating Doors for a minute or so.

Room thoroughly ventilated, and an even temperature maintained.

These stoves are the original British Made Anthracite Stoves, and as their principal parts are patented they possess advantages that cannot be found in any imitation. They can be fitted in front of almost any grate without any structural alterations and fed every 12 to 24 hours, can be kept alight right through the winter at a cost of about one sixth of what a gas stove would cost. The surround, or extension, which is included in the above prices, greatly improves the appearance, but the stoves can be supplied without it at a deduction of from 9/6 to 29/6 off the above prices. Free delivery to any station in England, Scotland or Wales. Ask for full "Esse" Catalogue giving other designs and full details,

THE NEW EAGLE PORTABLE RANGE.

This new Portable Range is of a distinct and improved type in which are embodied several notable features and advantages. The Ovens are exceptionally large and thoroughly ventilated, and can be very quickly heated with the smallest quantity of fuel.

The simplest one movement of the poker converts the fire from closed to open. The Oven and Boiler Dampers are combined into one Self-indicating Damper, showing by the position of letters whether the heat is on the Oven or Boiler only or both together.

A Draught Regulator is provided in the Hood, which can be regulated to check the too rapid working and overheating of the Range. This is automatically closed when an open fire is made. Improved Side Boiler. No danger of cracking or burning out. All wearing parts are interchangeable and easily replaced.

THE "LIGHTNING" GEYSER.

Made of very best hardened copper, all water-chambers tinned and SEALED so that no fumes or other product can come in contact with water while it is being heated. The water may be used for drinking, cooking, or other purposes, as well as for the bath.

It is fitted with automatic valve, which controls the gas. The great advantage of this Geyser over less expensive patterns is that it is made of heavy material and therefore will wear far longer and give every satisfaction to the user.

Class F H.

Prices—F H. (For a total travel of 10 ft.)

Class F H. is a Lift designed principally for private houses, and is worked with a handle or foot-brake below. This Lift is very quiet and easy to work, and is one we highly recommend.

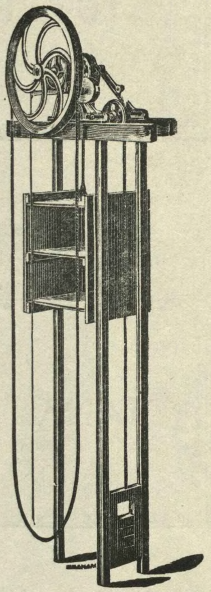
Our Special F H, which is somewhat similar to F H, is a Lift which is made for particular cases where quietness is essential. The Lift is made with all modern improvements, and costs from £25 to £30, according to travel and size. Cages of special design or woods, special ropes or other improvements supplied, at extra cost.



Class F.

Prices—Class F.

These are made in various ways. Class F. is suitable for raising loads up to but not exceeding 100 lbs. It is worked with overhead gear, and an endless hauling rope. The gear is fitted with a band-brake, and the brake cord is arranged close by the hauling rope. The cage is usually made of American Whitewood or Deal.

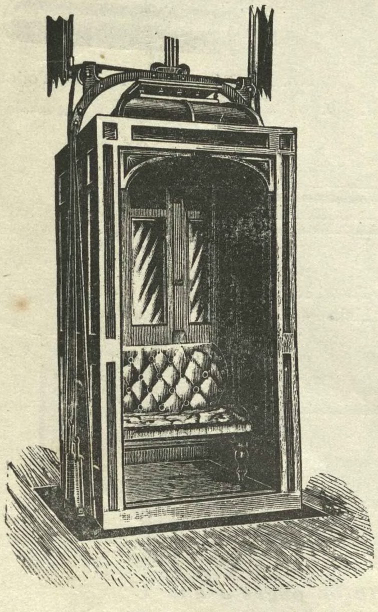
HAND POWER PASSENGER LIFT.



Lifts for raising Invalids are often made on the hand power principle. The Gearing is of amply strong spur wheel and pinion type, machined **V** wheels for the ropes, and a powerful band brake. All the wheels are securely fitted to steel shafts running in suitable bearings. One hemp or manilla rope is usually used for suspending the cage, and the guides are of well seasoned wood, carefully prepared and jointed. The Cage can of course be made in any design, but unless specially ordered consists of American whitewood, **V** jointed, stained and varnished; but if required it can be made of a design similar to illustration in mahogany or oak at an increased expenditure. The Lift is hauled up and down by an endless rope, and the brake cord is arranged close at hand for applying as required.

Prices of Lift as above described. For travel of 10 ft. with Cage as described above.

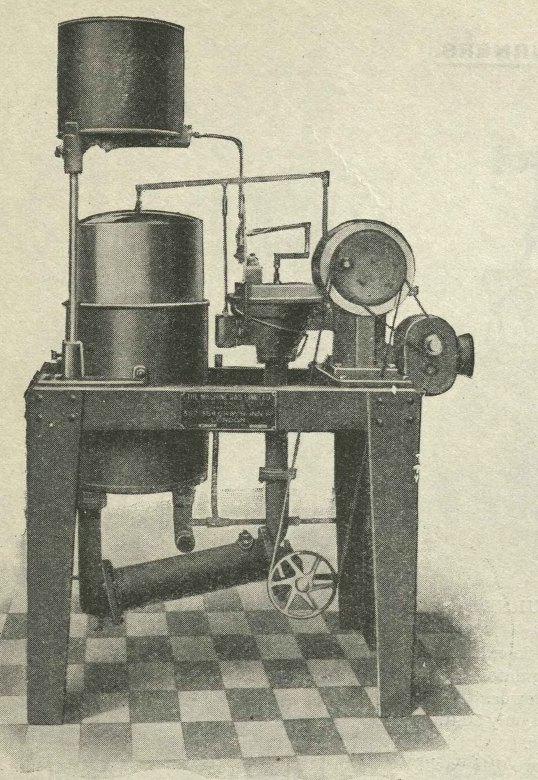
COUNTRY HOUSE LIGHTING.



AIR GAS LIGHTING.

An excellent method of lighting Country Houses is by Air Gas, which is becoming very popular on account of low first cost, small upkeep, and the general satisfaction obtained from its use. Air Gas can be made available for illuminating establishments of all sizes, and especially those of moderate dimensions, being quite simple in manufacture and free from risk of explosion. Harrods have tested every make of machine in the market, and can strongly recommend Cox's system. These machines are low in price but excellently made.

A 30-light machine can be run at its full capacity upon one gallon of petrol for 4½ hours, each light giving about 100 c.p. It should be understood that each light can, on all plants, be subdivided into lights of less candle-power.

ACETYLENE (GAS) FOR COUNTRY HOUSES.

We undertake the installation of complete ACETYLENE plants, and send an expert to advise Clients or give an estimate for work required to be done.

The ACETYLENE FLAME is peculiar and good in its affording a light more like that given by the sun (daylight) than any other artificial light; both colours and tints can be readily matched, and pictures can be appreciated by it. No other artificial light has this quality.

The products of combustion are the same as from coal gas, but only about one-twelfth the volume for a given light. The Acetylene flame is quite smokeless.

It is a safe light, Acetylene being less poisonous than coal gas. As the issue from an open burner is so small, it would have to be left open for a very long period in a closed room to render the air dangerous to breathe. The slow issue of gas is also an element of safety against explosion, for a burner would require to be left open several days to make an explosive mixture in a room.

A good and reliable Generator is of course necessary to ensure the foregoing.

New piping, if required, is inexpensive, as it only needs to be one-third the size of piping for coal gas. Small pipes are inconspicuous when run in finished rooms.

The Generator here illustrated is the Cavendish "A.B.C." (automatic), and is considered the most simple and economical now before the public. The attention needed that of a lad or odd man, is not more than ten minutes daily, and much less than the time required by lamps. There are no mechanical parts except two water taps, and nothing to get out of order or readily wear out. The generating apparatus consists of the central gas holder, on each side of which is a generating chamber and a condenser. The generating chambers are in duplicate and work independently, which is a great advantage in admitting of re-charging always being done in daylight without wasting unspent material. The gas given is cool and clean. There is no compression of gas or variable pressure from the holder. There is a positive working escape pipe if the holders should be carelessly over-charged. The Insurance Companies charge no extra premiums where this Generator is used.

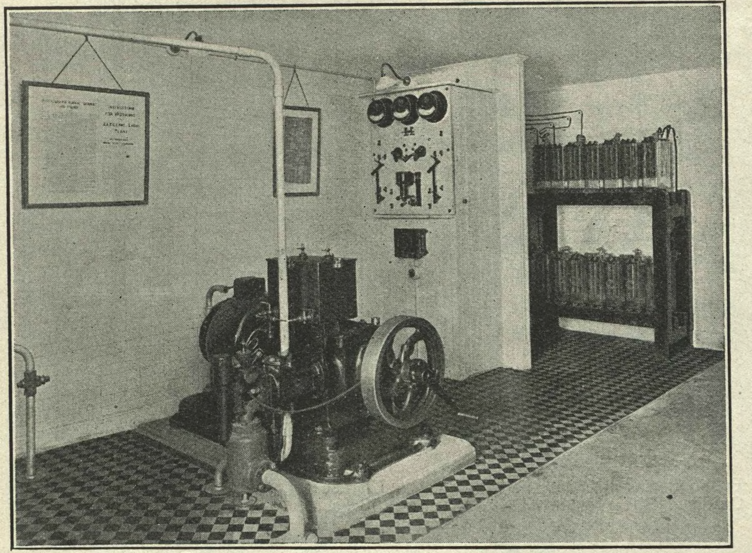
ELECTRICAL ENGINEERING DEPARTMENT.

ELECTRIC LIGHTING FOR COUNTRY HOUSES, Etc.



Plant on View in our Showroom.

In designing the sets it has been borne in mind that they will not be operated by a skilled mechanic, but probably by a gardener or handy man. Everything, therefore, has been constructed with the object of making the whole plant simple and yet absolutely reliable.

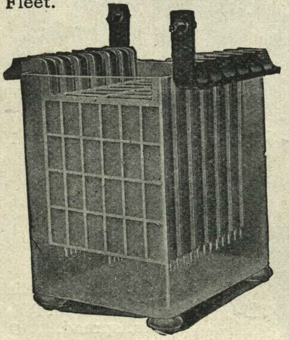
Cheaper sets can be supplied if desired, but the results of a long experience prove that the set illustrated can be thoroughly recommended in every way.

Cheap "Bungalow" Sets for 20 Lamps, £50.

Engineer sent to advise and estimate free of cost.

Amongst the many districts where Harrods have erected Electric Light generating plants may be included the following:

Keswick.
Wensleydale.
Overton-on-Dee.
Little Hereford.
Radnorshire.
Theydon Bois.
Gerrards Cross.
Chiddingfold.
Maidstone.
Fleet.
Cranleigh.
Aldermaston.
Oxshott.
Ivor Heath.
Camerton.
Radlett.
Easingwold.
Buntingford.
Etc.



HARRODS' ELECTRIC LIGHTING SETS

are suitable for Private Houses, Hotels, Offices, Public Buildings, Works, Railway Stations, etc.

Perfect Safety—Absolute Reliability — Simple — Compact—No skilled labour—Automatic lubrication and switch gear—Runs for hours without attention on Common Paraffin, costs less than half Petrol—No smell, no noise, no vibration.

HARRODS' SETS

consist of:

"Rational" Patent oil engine and dynamo, switchboard, pipes and water tank, as above. Complete with Battery.

The capacities given are the actual number of lights which the Battery can light for six and ten hours respectively; if the lamps are lighted direct from the dynamo the ten hours' capacity can be considerably increased. The lamps are metal filament at 1 watt per candle power.

A cheaper set can be supplied, driven by Vertical Engine. Prices on application.

Current can be supplied at 2·4d. per Board of Trade unit (this includes depreciation, fuel, wages, and stores).

How Harrods' Electric Light compares in cost with other forms of lighting.

PRITCHETTS AND GOLD'S BATTERIES

are used with the above sets.

PLATES.—The plates are manufactured from the purest lead obtainable, and have a large working surface, combined with great mechanical strength, thus ensuring good efficiency combined with long life.

BOXES.—The boxes are of glass, so that the inspection of the plates is facilitated. The plates are suspended from the sides of the boxes, and ample clearance is allowed between the bottom of plates and the bottom of the box.

ACID.—This is of the best quality specially prepared for use in batteries.

STANDS.—These are made of the best pitch pine and coated with anti-sulphuric enamel.

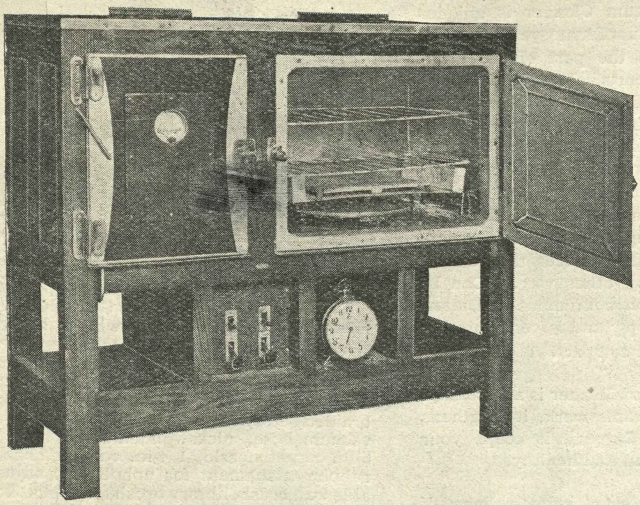
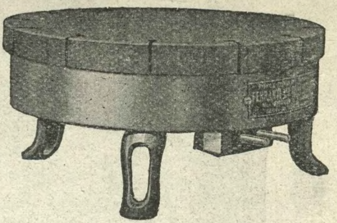
HEATING AND COOKING BY ELECTRICITY.



THE HARRODIAN ELECTRIC COOKING STOVE.
The Silent Servant.
This Stove has revolutionized the art of cookery. No attention required.
Price, complete, £**21**.
Full particulars on application.

Ferranti Electric Disc Stove for boiling, grilling, and toasting.

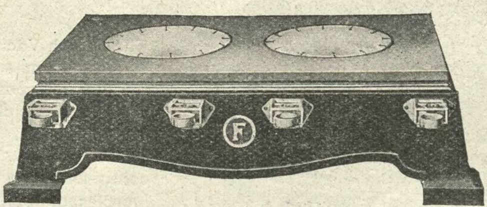
Very popular because of its general usefulness and portability. It will acomplish all the work usually one on a gas ring, with greater cleanliness and economy. Scientifically designed so that no heat is wasted. The best results are obtained with clean flat-bottomed utensils. An extension plate to allow two or three utensils to be used at one time, together with silver grill and toaster, may be obtained in Harrods' Electrical Showrooms.



No. E L 1279.

Single Heat Disc Stoves (for voltages up to 250 volts): Diameter of top plate, 7 in.; weight of complete stove, 6½ lbs.; current consumption, 700-800 volts; cost per hour (electricity at 1d. per unit), ¾d.; time required (stove hot) to boil 1½ pints of water, 7 minutes.

Price (including connector and 9 feet of flexible cord), **32/0**



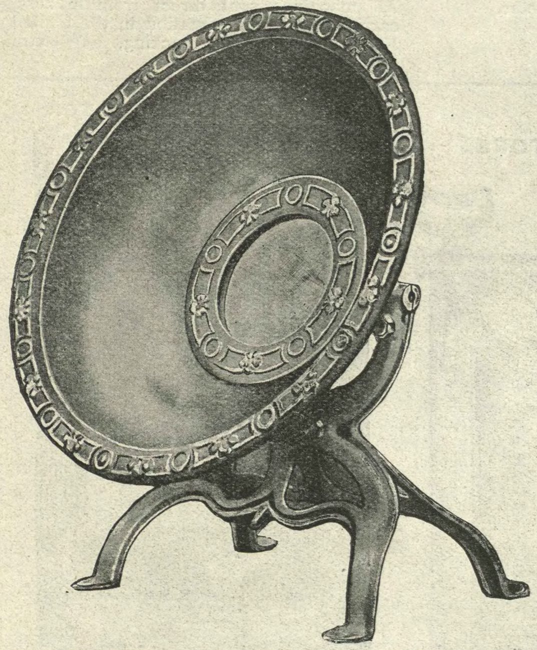
No. E L 1280.

Ferranti Electric Duplex Disc Stove for boiling, simmering, toasting, and baking.

This apparatus forms the basis of a complete kitchen equipment.

The Heating Discs are extremely useful for many culinary operations, and are made flush with the main plate so that several utensils can be placed half on for simmering on the low heat. Each disc can be switched on separately and regulated high or low, thus providing five ranges of heat in the oven, viz.:—1 disc low, 200 watts; 2 discs low, 400 watts; 1 disc high, 800 watts; 1 disc high and 1 disc low, 1000 watts; 2 discs high, 1600 watts. The frame is of cast iron, well enamelled, with nickelled edges. The whole apparatus is strong enough for rough kitchen use and yet well finished to encourage cleanliness and care. The electrical gear is extremely simple and reliable, and well protected in every way. Length, 25 in.; breadth 18 in.; weight approximately, 100 lbs. Each disc has a maximum capacity of 800 watts on the high heat and 200 watts on the low heat.

Price (including 3 yards of strong flexible cable), **6 Guineas**



Ferranti Electric Fire gives a clean bright heat in five minutes, and is the most convenient form of Heater obtainable. The bright glowing heat of the centre Disc is concentrated and reflected, making possible a comforting comparison with a cheerful coal fire. The Electric Fire can be used for making toast in the old fashioned way, and grilling can be accomplished with a Dutch oven as before an open fire. The Concave Reflector is pivotted so that it can be tilted horizontally, in which position a small kettle of water can be placed on the Quartz Disc and boiled in six minutes.

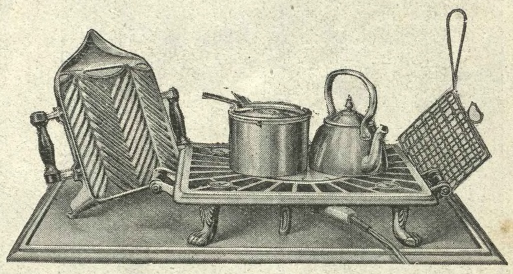
Reflector: Polished Copper. Frame and Ornaments: Bronzed.

Price (including 3 yards flexible cord), **4½ Guineas.**

Wire guard, 10/6 extra; current consumptiou, 900/1000 watts; height, 28 in.; weight, 28¼ lb.; diameter of reflector, 18 in. Consumes less than one unit per hour.

Ferranti Electric Breakfast Cooker, consists of 1 Disc Stove 7 in. diameter, **32/0**; extension plate (silver plated), **10/6**; 1½ pint aluminium kettle, **8/6**; 1½ pint aluminium saucepan, **8/6**; griller, **10/6**; toaster, **2/6**; price, complete, £**3 12 6**

The illustration also shows a large aluminium and asbestos tray (dull finish with bright beading), 24 in. × 18 in., price 21/0 extra. The disc stove uses 800 watts or 8/10ths of a unit of electricity per hour. Time required to boil 1½ pints of water is less than 15 minutes, even if the stove is quite cold to begin with. The Griller is ready for cooking bacon, steaks, chops, etc., in a few minutes after being placed on the hot disc. The Griller can be set upon a dish on the table and food served "direct from the grill."



No. E L 1291.

Ferranti Electric Iron.

Quick and economical heating properties. It is hot and ready for use in two minutes after switching on, and a uniform heat is maintained at the ironing surface. Absolutely reliable. The iron can be used in any room where electric light is installed, and will accomplish all kinds of domestic laundry work, but is especially suitable for the ironing of delicate fabrics, such as blouses, laces, etc. It is made in 4 lb. and 6 lb. sizes. Price **1 Gn.**, including 9 ft. flexible cord, connector and lamp adapter and stand. This 4 lb. iron consumes only one quarter of a unit per hour.

Electric Candle with base covered in real crasse (green or violet), fittings finished in gilt colour, and with fittings of solid silver, 23/6. Refills 0/9

No. E L 43. 21/0 Handsomely finished in green and gold to represent a four-leaved shamrock, and mounted on a finely polished wood case. One of the prettiest and most popular models. Refills 1/6

No. E L 296. 15/- complete. No. E L 296A. Refill batteries, 1/6 each.
Heavily-plated fittings on polished mahogany box.
Height over all, 6½ in. Size of battery box, 5⅛ × 4¾ × 2¼ in.
This Cigar and Pipe Lighter is a thoroughly practical and useful article. With the exception of the battery, which will give unlimited service for six to nine months, the only part of the lighter which requires attention is the reservoir, which has to be filled about once a week. Avoids the danger of matches, and is invaluable on the card table, desk, or in the smoking room.

No. E L 1114. 4 volt, 17 ampere hours, 33/6
No. E L 1115. 4 volt, 35 ampere hours, 47/6
If required, ordinary wet Accumulators (which must be kept upright) can be supplied as under:

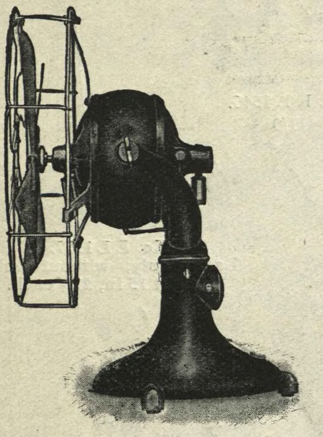
ELECTRICAL ENGINEERING DEPARTMENT.

WHEN ORDERING FANS PLEASE STATE VOLTAGE AND WHETHER DIRECT OR ALTERNATING CURRENT.

ELECTRIC FANS provide an effective and inexpensive method of cooling and ventilating. They can be fitted up without trouble or expense in any room lighted by electricity, by connecting with any existing wall plug, or with an ordinary lamp holder by means of an adaptor. Complete with 3 yards wire.

The current consumed is very moderate, working out at the rate of ONE PENNY FOR FIVE HOURS. Where electric light is not available the new Accumulator Fan, which is self-contained, will be found excellent.



"Ediswan" Type.

The Reputation of MAZDA Lamps is built upon the surest of all foundations—SATISFACTION TO USERS

The Millions of Mazda Lamps

in use to-day testify to their sterling worth.

MAZDA quality is not a claim, but a fact, established by widespread use among a host of satisfied users.

The quality and results of MAZDA LAMPS are beyond question.

There are no lamps made that can surpass MAZDA LAMPS for

DURABILITY, ECONOMY, LONG LIFE, BRILLIANT QUALITY OF LIGHT, AND GENERAL SATISFACTORY SERVICE.

Insist on having Mazda's and secure the latest improvement—drawn wire filaments—they cost no more than the others.

Harrods are famed for the quality of their Groceries and Provisions, and regularly execute orders for customers in all parts of the Kingdom. They also purvey for Clubs, Hotels, and similar institutions, as well as for Yachts, House Boats, Camps, &c.

Weekly Price Lists giving the latest prices of comestibles are issued each week, and afford practical assistance in the selection of requirements.

An inspection of the Food-Stuff Departments cannot fail to impress the visitor with the absolute cleanliness and the strict adherence to hygienic principles which prevails everywhere.

GROCERY DEPARTMENT

A PUBLIC TELEPHONE IS PROVIDED IN THIS DEPARTMENT FOR CUSTOMERS' USE.

GROCERIES, ITALIAN GOODS, FRENCH AND CALIFORNIAN DESSERT FRUITS, ETC.

Harrods will be glad if ***Orders for each Department are made out separately,*** as it facilitates the execution thereof.

Town Customers are respectfully solicited to order *a week's supply of Groceries,* as it minimises the cost of distribution and enables us to reduce prices still further.

All bottles of Sauces, &c., are designated as ¼ bottles, ½ bottles, and bottles, instead of ½ pints, pints and quarts, in consequence of the New Weights and Measures Act, and all Tinned Goods about the specified weights.

Great care should be observed in unpacking Groceries, etc., as many instances occur daily of articles being found in Cases returned to Harrods as empty.

Customers will oblige and facilitate the execution and despatch of Orders by kindly affixing prices, kind and quantity of article required, and not to order ***"same as before"*** as this entails reference and consequently delay.

Customers will kindly note that in executing Orders for Goods not appearing in Catalogue ***some delay may occur;*** although, of course, the Directors will see that the Orders are executed with the greatest possible rapidity.

The following Prices are subject to ***Fluctuations of the Market.*** Alterations and additions are published in "Weekly Price List," post free on application. ***Special Supplementary Lists are issued when necessary.***

Any article not quoted in list which has to be procured, will be sent carriage forward.

GROCERY DEPARTMENT.

BISCUITS.

McVITIE & PRICE'S Biscuits, Edinburgh.—We desire to call attention to **McVitie & Price's Oatcakes and Biscuits,** which are of excellent Quality.

Huntley & Palmer's, Macfarlane, Lang & Co.'s, Peek, Frean & Co.'s, and other Makers.

Customers will oblige by stating whose Make they require.

Huntley & Palmer's, McVitie & Co.'s, Peek, Frean & Co.'s, Macfarlane & Co.'s and Jacob & Co.'s tins charged 0/8 each, Crawford & Co.'s 0/6 each, and the same allowed when returned in good condition. Small tins are included in the following quotations, and allowed for when returned in good condition, as per list.

Any Biscuits of the above Makers can be supplied, but those not named in the List will take a few days to procure.

The Biscuits are guaranteed to be sent out in sound condition, and no allowance can therefore be made for breakages in transit. Customers are strongly recommended to order all Biscuits in tins, thereby preserving their flavour and crispness for a considerable period.

NOTICE.—An extra charge of 2/6 will be made on all casks of oil for Town and Suburban Districts in lieu of carriage, and 4/0 will be allowed on empty casks if returned in sound condition (carriage paid) to the Stores. For the convenience of customers residing in Scotland and Ireland, arrangements have been made with refiners for the supply of Kerosene and Crystal Oil in Casks from Depots in Edinburgh and Dublin. This arrangement will show considerable saving in carriage.

Kerosene Oil (Luxor Brand). Prices on application, per case of two 4 gal. tins ; per cask of 42 gal. per gal.

Cans are charged for, but returnable at the following rates :—Five gal. with tap, 6/6

Oil for Lamps, "Hydrysol"—

Per case of 4 tins, containing 5 gals. 5/0

Cases and tins charged, 5/0 allowed for when returned.

NOTICE.—This Oil is delivered by the Hydrosol Company, and they collect Empties, which should *not* be returned to Harrods.

Customers are respectfully asked, before signing for Drum, Can, or Cask, to make certain that it is in a perfect condition and not leaking, as the Company do not hold themselves responsible for any loss after the cans and casks have been accepted and signed for by the Railway Companies and Carriers ; and customers residing in London are recommended not to order these Oils in casks, as the difficulty the carriers experience in delivering them down area steps or underground cellars renders the casks liable to leakage, which cannot always be stopped in time to prevent loss. Any that are delivered will be at **Consignee's own risk.**

Complaints are frequently received of the quality of the oil supplied, but, upon investigation, it is found in nearly every case that the lamp is in fault. Customers making use of Kerosene or Crystal Oil for lamps are recommended to observe the following precautions. By so doing the liability to explosion will be avoided, and the best light obtained.

No lamp should be used in which there is a possibility of the oil coming into contact with the flame. The well should not be filled too full.

When a lamp has been unused for a considerable time, the well should be drained and the whole thoroughly cleaned, filled with fresh oil, and fitted with a fresh dry wick.

Special attention should be paid to the size and quality of the wick, which should exactly fit the burner (so as to move up and down easily, but not loosely), and should be of soft texture, and not too highly plaited.

When putting out a lamp, care should be taken not to screw down the wick low enough to allow any of the charred portion to fall into the well.

The lamp should not be blown out, but the wick should be turned down very low and left to go out.

Mineral Oils are accepted by Railway Companies on the days specified below, and all orders should reach the Stores on the day previous to ensure dispatch.

Turtle Soup Tablets	per box of 4 tablets	1/0

Each tablet contains a considerable proportion of real Turtle, and makes a large cup of nourishing food.

Directions for Turtle Soup.—The preparation requires to be soaked in cold water for three days (changing the water daily), when it extends to three or four times its present bulk or weight—becoming exactly similar to the Calipash and Calipee obtained from the fish after being killed. It is then to be cut into pieces of about an inch square, added to a suitable stock, and cooked until quite tender. One pound weight of Dried Turtle is sufficient for three quarts of soup. A glass of dry sherry added to each quart of soup will be found an improvement. Lemon juice and cayenne to taste.

NIXEY'S REFINED BLACK LEAD

One 1d. block does more work with better results than two 2d. tins of Stove Paste.

1d., 2d., 4d., and **1s.** sizes. :: :: The BEST and most ECONOMICAL.

It is without a single doubt UNEQUALLED for producing a BLACK and LASTING POLISH to STOVES, KITCHEN RANGES, and ALL IRONWORK. Being pure BLACK LEAD it is UNAFFECTED by HEAT, and consequently will NOT BURN OFF like the more MODERN STOVE PASTES DO. See the name "NIXEY" and REFUSE SUBSTITUTES.

Used in all the Royal Households and numerous Public Institutions, Hospitals, &c.

For those who PREFER a STOVE PASTE ready for use in Tins, use **"NIXELENE," 1d., 2d.,** and **4d.** Tins. The most SATISFACTORY of all modern Stove Paste Polishes.

"THE BOLD DRAGOON."

A copy of this lovely picture in colours sent post paid and free from any advertisement in exchange for wrappers or band labels taken from Nixey's goods. For numbers required see actual labels. Other pictures, "Her Thoughts" and "Gallant Sailor," can also be obtained.

WHAT IS SAPOLIO?

It is a solid, handsome cake of scouring soap, which has no equal for all cleaning purposes except the Laundry. To use it is to value it.

WHAT WILL SAPOLIO DO?

Why it will clean paint, make oil-cloths bright, and give the floors, tables and shelves a new appearance.

It will take the grease off the dishes and off the pots and pans.

You can scour the knives and forks with it, and make the tin things shine brightly.

The wash-basin, the bath-tub, even the greasy kitchen sink, will be as clean as a new pin if you use SAPOLIO.

One cake will prove all we say. Be a sensible housekeeper and try it.

Many articles pretend to do the work of SAPOLIO. They are good after their kind, but, well—JUST TRY SAPOLIO.

A small bowl of Water, a cake of SAPOLIO and a cloth will do more cleaning than a pail of water and three cakes of ordinary soap.

We recommend every household to use

Borwick's Knife Powder.

The best for cleaning knives.

Don't use flour; use Corn Flour.

The perfect purity and delicate flavour of Brown & Polson's "Patent" Corn Flour make it the housewife's best friend for thickening soups and sauces.

Have it always on the cookery table. It takes a few minutes longer in the saucepan, but much less time in mixing. White sauce, parsley, egg, tomato, gratin, and other sauces for fish and vegetables; cauliflower au gratin, cheese tartlets and other savoury dishes; nelson pudding, fig pudding, egg blanc-mange are all *easy* to make with Corn Flour. Ask the Grocer for

Brown & Polson's "Patent" Corn Flour

the kind you use by *level* spoonfuls.

Fresh and fragrant straight from the oven.

That is how Paisley Flour cakes, scones and rolls may be safely eaten and enjoyed. The ease and simplicity in use of Paisley Flour enable quite young girls to bake successfully at home. For home baking use always

"Paisley Flour"
(Trade Mark)
The SURE raising powder

and go by the rule—mix well, dry, 1 part of Paisley Flour to 8 parts of ordinary flour.

7d., 3½d., and 1d. packets. The 7d. packet will raise 7lbs. of flour.

BAKERY DEPARTMENT

WEDDING CAKES.

Harrods have gained special distinction in this Branch, and supply exclusive and artistic Cakes from 10/6 to 50 guineas each at the uniform price of 1/6 per pound. Harrods make all their Cakes on the premises in their own bakery, and employ for this work only the most skilful and successful English and Continental Specialists. They supply one standard quality of cake only, the choicest that can be made, and of delicious quality and all-round excellence. The Cakes are encrusted with a thick layer of pure Almond Paste, artistically iced and piped with white sugar, which is made by a new process rendering it EASILY cut (not the usual hard icing), handsomely ornamented with silver decorations, etc. They are sold by weight at 1/6 per pound, unless otherwise arranged, and this price includes a finished Cake with simple decorations. Top centre ornaments and fuller decorations extra. Cakes intended to be decorated with natural flowers, and on request, are suitably piped to admit of this. To enhance the appearance of Cakes, a silver stand and saw can be hired at a nominal price, according to size; and, unless specially instructed to cut in wedges, all Cakes are sent out intact.

CUT WEDDING CAKE, finest quality almond, iced, any weight ... ... per lb. 1/6

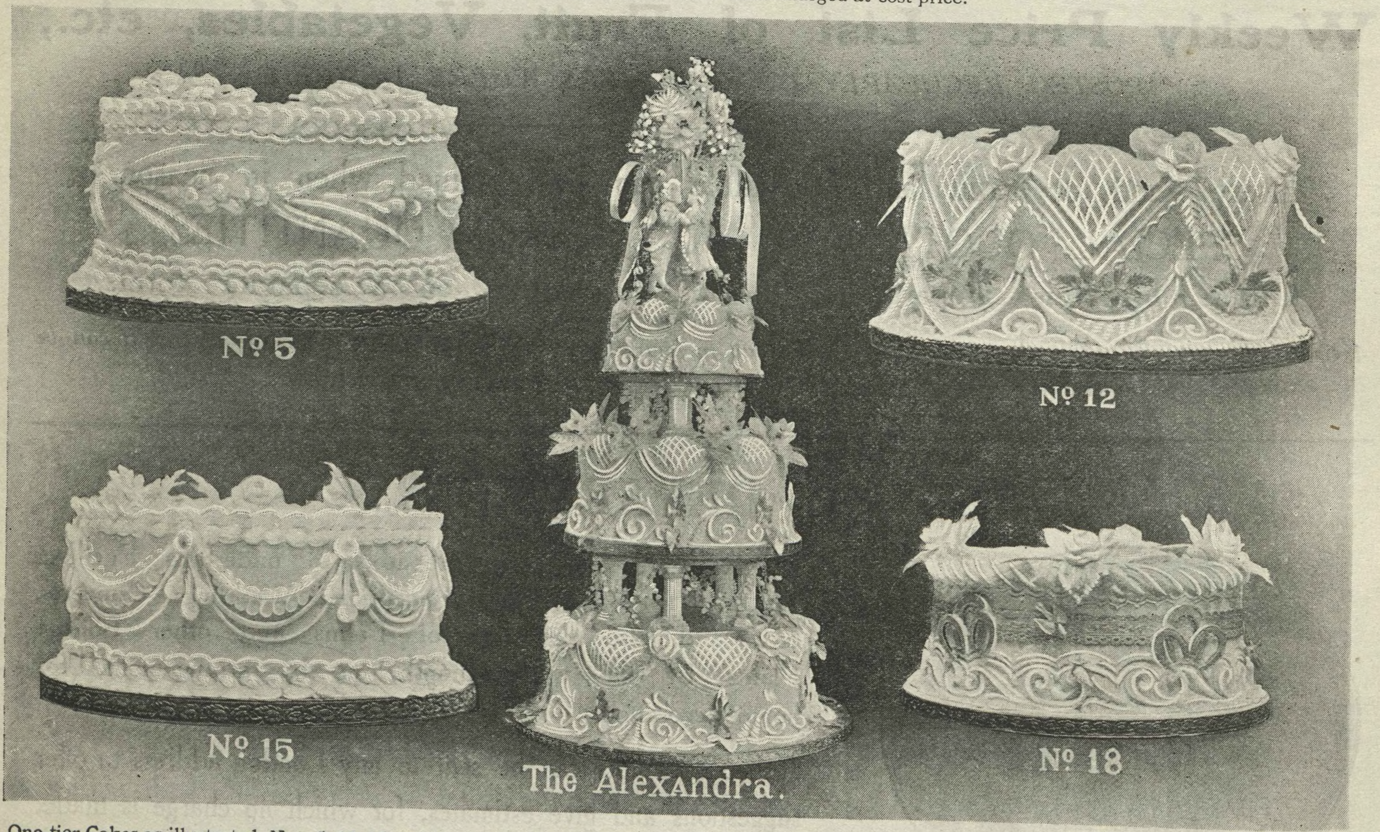
Prices for supplying Boxes and Packing:— Per doz. boxes—Customers supply Cake—3/6 ¼ lb., 4/0 ½ lb. Harrods supply Cake—6/6 ¼ lb., 12/0 ½ lb.

Prices for supplying Boxes, Packing, Addressing, and including Postal Charges (Inland):—

Per doz. boxes—Customers supply Cake—5/6 ¼ lb., 7/6 ½ lb. Harrods supply Cake—8/6 ¼ lb., 15/6 ½ lb.

Packing and Delivery.—Great care is used in packing and delivery of Wedding Cakes; customers may rely upon them arriving in good time and condition. It is desirable, where possible, to give a reasonable length of time in order to admit of the Cakes receiving proper attention. Urgent orders will, however, be executed as expeditiously as possible. For special illustrated list of Bride Cakes, Ornaments, &c., see following pages.

Wedding Cakes for Export.—The high standard of quality which characterises Harrods' Cakes renders them particularly suitable for export to all parts of the world, whence they will be dispatched in tin lined cases charged at cost price.



One-tier Cakes as illustrated, Nos. 5, 12, 15 and 18, supplied from 7 lb. upwards. Two-tier Cakes supplied from 16 lb. upwards. Three-tier Cakes supplied from 42 lb. upwards. Pillars for enhancing the appearance of Wedding Cakes from 10/0 each, according to size, not returnable.

CHÂTEAU BELMONT, PUY ASTRUC.

HARRODS have every confidence in recommending Wines of this Château to their Customers. They are of rare style and flavour, having an exquisite bouquet, soft and fruity.

RED WINE.—The Red Wine of this Château has the pronounced flavour which is only associated with the highest priced wines, the predominating feature being its exceptional body.

Per doz. bots. 18/0; per ½ doz. bots. 10/6. Sample bot. 1/6.

WHITE WINE.—This will immediately appeal to the lovers of a fine, dry, and flavoury White Wine. Harrods count themselves distinctly fortunate to be able to offer such exceptional values as are represented by these high-class wines, and invite customers to place a sample order with the certainty of unqualified approval.

Per doz. bots. 26/0; per ½ doz. bots. 14/6. Sample bot. 2/2.

WINE & SPIRIT DEPARTMENT

A PUBLIC TELEPHONE IS PROVIDED IN THIS DEPARTMENT FOR CUSTOMERS' USE.

As direct dealers with prominent Wine Shippers and Distillers, Harrods hold the reputation of always having a good Stock of Wines of the most favourable vintages. The prices quoted will be found, to compare favourably with other Wine Merchants.
Practical men sent to bin away and arrange cellars for Town and Country at a moderate charge. Railway expenses will be charged extra for the latter.
Samples supplied free or at the Stores in the sample room, with the exception of Proprietary Articles and Sparkling Wines.
Special quotations to buyers of 12 dozen and upwards.

Cellar Temperature. It should be dry and well-ventilated, not draughty; temperature not to be below 50° Fahr. nor exceed 60° Fahr. All Wines binned away on their side (Port with chalk mark uppermost). Crusted Wines should be decanted before using. When bottles are uncorked it is essential to wipe neck of bottle.

NOTICE.—The quotations for Wines, Spirits, etc., are the prices at time of going to press, but they are liable to fluctuations either by changes in the Budget or market changes.
We shall be pleased to forward our Monthly Price List to applicants, showing the latest prices.

For Clubs, Hotels and Messes, see Special Wholesale List, forwarded Post Free on Application.

RECIPES FOR WINE CUP, CYDER CUP AND COCKTAILS.

CLARET.—To 2 bottles Claret add 3 bottles Soda Water, a liqueur glass of Sherry or Orange Curacoa, the peel of a Lemon, powdered Sugar to taste, a few slices Cucumber Peel, or, instead, some sprigs of Borage.
CHAMPAGNE.—To each bottle Champagne add 2 bottles Soda Water, a liqueur glass Orange Curacoa, a few slices Cucumber Peel (Maraschino may be substituted for Curacoa).
CYDER CUP.—To each bottle Cyder add 2 bottles Soda Water, a wine glass Brandy, and the peel of a Lemon with a sprig of Borage. A small amount of Sugar to be added to taste, if a dry Cyder.
When the above Cups are completed, they should be put on the ice, but on no account should ice be put into the cup.
MANHATTAN COCKTAIL.—Half fill a tumbler with chipped ice, add 4 drops Angostura Bitters, half a wine glass Scotch Whisky, half a wine glass of Italian Vermouth, half a glass Curacoa, half a liqueur glass plain Syrup, well shake, put in a piece of Lemon, and serve.
BRANDY COCKTAIL.—Half fill a tumbler with chipped ice, add 4 drops Angostura Bitters, 1 wine glass Brandy, half a wine glass Curacoa, half of Syrup, wel shake, put in a small piece of Lemon, and serve.

Empties allowed for as follows: BOTTLES.—Champagne, 3d. doz.; Port, Sherry, Brandy, etc., 6d. doz.; Whisky (White and Black), 9d. doz.; Claret, 6d. doz. JARS.—½ Gallon, 1/6; 1 Gallon, 2/-; and 2 Gallon, 4/-. CASKS.—4 Gallon, 4/-; Octaves, 10/-; Quarter Cask, 15/-.

V.O.H
Special Reserve
Scotch Whisky
of Great Age
Blended & Bottled by
HARRODS Ltd
LONDON, S.W.

These Whiskies, which are the property of Messrs. Harrods, will at once appeal to connoisseurs as rich and mellow blends of exceptional purity. They are supplied to a large clientele, who prefer them to Whiskies quoted at much higher figures because of their absolute uniformity in quality, a feature so often lacking with many at the same price. Harrods have never less than 3,000 gallons in stock maturing in the wood, and they guarantee every bottle of their V.O.H. Special Blend 8 years old, and their V.O.H. Reserve a Whisky of much greater age.

Harrods highly recommend these two Blends to discriminating critics who desire a genuine Old Highland Whisky, possessed of exhilarating qualities without the detrimental after-effects associated with the ordinary run of spirits.

V.O.H. Special Reserve, of Great AGE.

Has the peculiar but most pleasing palatable flavour which is a result of being matured in wood for a considerable number of years. It is imbued with those exhilarating properties which stimulate the brain to healthy activity, and it will appeal to connoisseurs as being a *Scotch Whisky in its truest Essence and Spirit.*

V.O.H. Special Blend, 8 Years Old.

This famous Old Highland Whisky possesses a mellowy and pleasing palate, and is certified as being absolutely free from impure ingredients. It is a stimulant in the truest sense of the word, without the after relaxation which is so often noticeable after partaking of impure whiskies.

DARVEL BAY CIGARS.

Gentlemen who are fastidious and exacting in their taste regarding Cigars will appreciate this brand. The delicate yet rich flavour and aroma is due to judiciously blending picked Havana Tobaccos with those from the virgin fields of Borneo. The characteristic Havana flavour is there, but softened to a pleasing degree.

The Illustrations show actual sizes of the SEVEN "H L" DARVEL BAY CIGARS.

The Departments devoted to Fashion have a particular fascination, the name Harrods being a *cachet* with well-dressed people for correct and distinctive attire.

Their fashion experts regularly visit the Continental markets. They have established agencies in the leading centres which keep them informed of the trend of fashion, and constantly feed them with novelties.

Harrods have developed the manufacturing side of their fashion business to such an extent that they now produce in their own workrooms a great number of fashionable garments, including gowns, coats, blouses, millinery, and underwear, many of original design as well as replicas of selected Paris models.

This development of manufacture not only tends to improve quality by giving Harrods the entire supervision of the materials and workmanship, but also lessens the cost to customers, all middle profit being obviated by this method of supplying direct.

SILK DEPARTMENT.

SILKS, SATINS AND VELVETS.

Fashion demands a lavish use of these exquisite materials in every lady's toilette. Many and varied are the weaves stocked at Harrods. The range of beautiful and artistic colours—many exclusively dyed—surpasses any collection previously offered. Every shade and tone that has a place in the present modes is stocked in many qualities.

Not only in exclusiveness of material does Harrods' supremacy lie; their value also is never found lacking. The enormous output they enjoy opens every market to them, so all French, Swiss and Japanese silks are imported direct. The British silks also reach Harrods' counters without the aid of the middleman, thus ensuring lowest prices to Customers.

SOFT SATINS

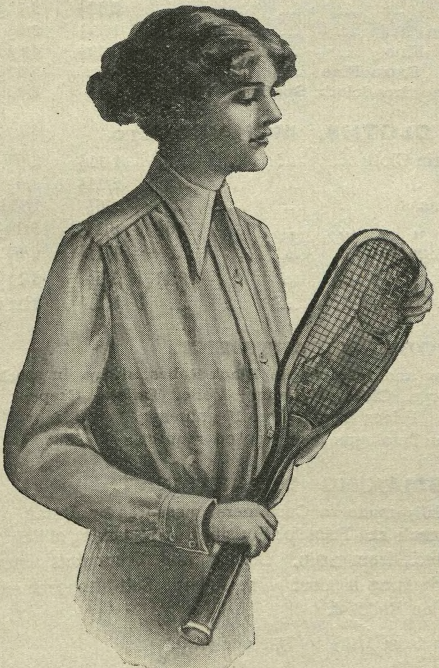
"SPUNELLA" The Premier Washing Silk.
BRITISH MADE THROUGHOUT.



An entirely new material, the outcome of exhaustive experiments, found to be the ideal fabric for Ladies' Blouses, Children's Frocks, and other garments that have to be frequently laundered.

Why Harrods recommend "Spunella"

THE fact that "Spunella" is included in Harrods' stocks implies that it has passed their test and attained the high standard of quality required of everything sold by them.

"Spunella" is a pure silk fabric of British manufacture throughout—is inexpensive, dainty, and useful, besides being a fabric that washes and wears well; every colour is guaranteed fast dye.

DYEING & CLEANING DEPARTMENT

A PUBLIC TELEPHONE IS PROVIDED IN THIS DEPARTMENT FOR CUSTOMERS' USE.

GENERAL INSTRUCTIONS.

HOW TO SEND GOODS.—Customers sending Goods for Cleaning or Dyeing are particularly requested to enclose in the parcels their Name and Address, with full particulars and instructions.

Parcels sent from the Country should always be advised per post, as by so doing delay and miscarriage are prevented.

DELIVERY AND COLLECTION.—Goods are collected and delivered free in London and Suburbs, but the articles must be in readiness, securely tied up, to go by the carts when they call, as the large delivery and collection of Goods will not permit of any delay. Name and address should be enclosed in each parcel, also instructions.

NON-LIABILITY.—Harrods give notice that Goods are received only on condition that they be not held responsible for loss arising from any fault there may be in the material, and which is developed in the process of dyeing or cleaning, or for shrinkage; every possible care is exercised with goods which are faded and tender, but all work undertaken at OWNER'S RISK.

CANNOT GUARANTEE.—Goods ordered to be dyed to match pattern the exact shade cannot be guaranteed, but Harrods always dye as nearly as possible to the shade selected.

PRICE LIST.

The following prices have been carefully prepared, and may be taken as a safe guide, although Harrods do not hold themselves bound to them in all cases, owing to the immense variety in style and quality of articles sent. A definite estimate can always be given before putting work in hand, and quotations for quantities supplied on application.

Glazing a Speciality.

Harrods have fitted up in this Department the most approved machines for Polishing Dance Cloths, Carpet Covers, and Stair Damask.

They have also a special method for drying, which ensures perfect freedom from Creases and an even surface.

Chintz Glazing is also a special study; and those requiring good work at moderate charges would do well to give Harrods a trial.

CRETONNES, CHINTZES, and COTTON GOODS seldom clean successfully by the CHEMICAL process. Harrods therefore claim to use their discretion as to the methods most suitable.

The WHITE ground of CRETONNES and CHINTZES can be tinted with a very pretty effect, and without changing the colour in the design. This is an advantage where the colours are washed out or faded.

ORDINARY (or Wet) CLEANING is specially studied, as many articles when stained or discoloured by wear can only be restored to anything like their original condition by this method. A number of new appliances enable Harrods to CLEAN and FINISH the work in a superior manner.

Old Tapestries, Oriental Embroideries, Altar Cloths, Chasubles, etc., Cleaned with the Greatest Care by a Special Method.

Silk Dress Fabrics.

After many experiments a process has been discovered whereby we are able to dye Silk goods without unpicking or removing trimmings, and by the adoption of this method the original lustre of the fabric is maintained.

The result is an "Equal to New" appearance of such things as Brocades, Satins, and Silks.

This method of treatment is particularly recommended for valuable Ball and Evening Dresses, Silk Tea Gowns, Mantles and Costumes, as it involves no risk of deterioration of material. Prices upon application.

Laces.

As this Department is in charge of experienced lace cleaners and finishers, all laces are carefully cleaned and got up in the best style.

ANTIQUE and MODERN LACE of every description in Handkerchiefs, Collars, Cuffs, etc., beautifully cleaned or tinted and finished as when new.

MALTESE, MECHLIN, LIMERICK, and VALENCIENNES LACES have the edges carefully wrought out and the patterns raised as in the manufacture.

LACE SHAWLS, JACKETS, VEILS, etc., dyed and finished.

LACE DYED all colours. Black Lace re-dyed. All laces are done at owner's risk, and the value of expensive lots should be notified, to ensure special attention.

Important Improvement in Silk Finishing.

It cannot be too widely known that, after much patient experiment, Harrods have designed and perfected a machine for softening and imparting a clear surface and the original lustre and brilliance to silks after dyeing.

Everyone knows the complaints so general about Dyed Silks—viz., that they are hard and papery, and have lost their former suppleness. This can no longer be said about Silks, either for Dresses or for Upholstery, dyed by Harrods.

N.B.—Owing to the use of chemicals in the production of many Glacé and other makes of bright finished silks, the traces of which cannot be detected before immersion, Harrods do not undertake any risk in cleaning or dyeing; in all cases these goods are treated with the greatest care to ensure a satisfactory result, but only at owner's risk.

AT Harrods there is a wonderful series of separate Service Departments run for the convenience of clients. These undertake the insurance of life, property and servants, buy, sell or let houses and estates, buy or sell stocks and shares, let safes in which to keep valuables, let out on hire such useful things as pianos, cutlery, plate, linen, &c. Harrods will at the shortest notice supply everything for social functions and carry same through without trouble to the hostess. One can book seats at the Theatres, secure tickets for railway journeys, book sea passages, despatch household and other property to any part of the world. You can get your hair dressed, hire a carriage or motor car, lunch or dine on the premises, enjoy the club and reading room, join an up-to-date library, advertise in any paper, warehouse your furniture and effects, store furs, tapestries, etc., in a specially constructed cold-air chamber, and open a banking account.

BANKING DEPARTMENT

SITUATED IN HARRODS' ROYAL EXCHANGE.

CURRENT ACCOUNTS.—Current Accounts are opened for Shareholders and Customers or friends introduced by them.

Interest at the rate of 2½ per cent. per annum free of Income Tax is allowed upon the minimum monthly balance, provided it is not under £20, and such interest is credited annually in the first week in January.

No Commission charged for keeping Accounts, but the opening lodgment must not be under £20, nor the minimum balance less than £10.

Cheques are made up in books of 30, 60, 100, and 120, and will be charged to clients at the actual cost of stamps—viz.:—2/6, 5/0, 8/4, and 10/- respectively.

Pass Books will be made up weekly or otherwise to suit clients, but in all cases should be returned every quarter-day for comparison with the Ledgers.

DEPOSIT ACCOUNTS.—Money is received on deposit in sums of not less than £5, nor more than £300, subject to seven days' notice of withdrawal.

Interest free of Income Tax is allowed from date of deposit to date upon which withdrawal notice expires, and is paid half-yearly—viz., 30th June and 31st December.

The Directors reserve to themselves the power to return deposits or change the rate of interest upon giving one month's notice.

Any change of address should be notified to the Manager of the Banking Department to ensure the interest being remitted direct.

Deposit Accounts may not be drawn upon by Cheque; but at any time a sum may be transferred to Current Account upon receipt of Deposit Note with the necessary instructions written thereon, duly signed by the Depositor.

Country or other drafts will be received and placed to credit of account when realised, without charge for clearing.

Dividends, Annuities, Pensions, etc., received and placed to credit of account or remitted as may be arranged.

Circular Notes and Letters of Credit obtained.

BILLS FOR COLLECTION.—The collection of Bills on London and Provinces, either Clean or Documentary, is undertaken on the following terms:—

A Commission of 1¼ per centum, which covers all ordinary expenses of collection and remission, but a Minimum of Two Shillings and Sixpence is charged on small Bills of £10 and under.

Bill Stamps, Notarial Expenses, &c., extra if incurred.

Instructions should accompany Drafts as to procedure in case of non-payment.

STOCKS AND SHARES.—For the convenience of Shareholders and Customers the Directors have arranged for the Manager of this Department to afford all necessary information as to prices of Shares to intending Buyers or Sellers, and to transact business on their behalf with the Company's Brokers, the terms for which will be forwarded on application to the Manager of the Department.

Remittances may be made by Cheque, Bank Notes, Postal Orders, or Coin, but should in all cases be registered.

A personal interview is desirable in the opening of an account, but this formula may be dispensed with by filling up the form provided for the convenience of Customers residing at a distance from the Stores, which will be forwarded on application.

Banking Hours: Nine to Six. ***Saturdays: Nine to One.***

POST & TELEGRAPH OFFICE

Situated near the Banking Department and Chief Cashier's Office in HARRODS' ROYAL EXCHANGE.

Customers may send Telegrams from and have their Letters addressed to the Royal Exchange.

NOTICE.—An Appointment Board is hung in the Royal Exchange to enable Customers to leave Notes for their Friends. The Royal Exchange is such a recognised rendezvous that this proves a very convenient and much-appreciated innovation.

INSURANCE DEPARTMENT

(AND AT LLOYD'S)

Harrods' Insurance Department occupies a unique position in the Insurance world, acting as Agents for all the principal Insurance Companies, and being represented at Lloyd's by an expert Manager. Every class of Insurance is undertaken, and information, expert advice, and quotations freely tendered to Clients. Harrods have no preferential arrangement with any Insurance Companies or Underwriters, but advise their Clients purely on the merits of the various offices, thus obtaining always the best possible terms consistent with perfect security. (Situated on Second Floor, take Lift in Carpet Dept.)

MONEY TO LEND.	The attention of Shareholders and Customers is specially directed to the List of MONEYS TO LEND as a regular demand for Advances by Way of Mortgage has been a Feature of the Business for some time. The Character of the Security desired should be Minutely described, and whether the MONEY is subject to The Trustee Act.
COLONIAL and FOREIGN PROPERTIES.	An extensive system of LOCAL AGENTS has been arranged. RIVIERA VILLAS, NORWEGIAN, SWEDISH, AND AUSTRIAN FISHINGS AND SHOOTINGS, Etc.

APPLICANTS FOR SUCH PROPERTIES

should forward full details of their requirements. A CAREFUL SELECTION of likely places will then be sent, particular attention being drawn to those places which have been inspected by a Member of the Staff of the Estate Office. The requirements will be indexed and particulars of any places answering thereto will be forwarded FREE OF ANY CHARGE as they are received. *A SPECIAL INDEX is kept of those Customers who wish to RETAIN THE SERVICES of the ESTATE OFFICE in their behalf, and who are willing to remunerate the Company when a suitable property has been found. By this means a great deal of Inconvenience, Expense, and Trouble is saved to House Hunters. It often happens that a property is mentioned to Messrs. Harrods which cannot be dealt with in the ordinary way of business, but which can be introduced to anyone willing to pay a commission should business result.*

SURVEYING.

SURVEYS of every description are undertaken in Town and Country for the purposes of REPAIRS, SANITATION, DRAINAGE, DILAPIDATIONS under Leases, EASEMENTS, RIGHTS OF LIGHT AND AIR, WATER SUPPLY, RATING APPEALS, PLANTING AND MANAGEMENT OF TIMBER, GAME PRESERVING, Etc.

DETAILED INVENTORIES AND VALUATIONS

of the whole contents of

TOWN AND COUNTRY HOUSES

An admitted defect of the present system of Fire Insurance is the possibility that the Insurer may be called upon in the event of loss occurring from either Fire or Burglary *to produce evidence of the existence and Proof of the Value* of all or any article destroyed. The difficulty of so doing after a fire is obvious.

TO GUARD YOURSELF AGAINST SERIOUS LOSS

arm yourself with a detailed Inventory and Valuation *beforehand*.

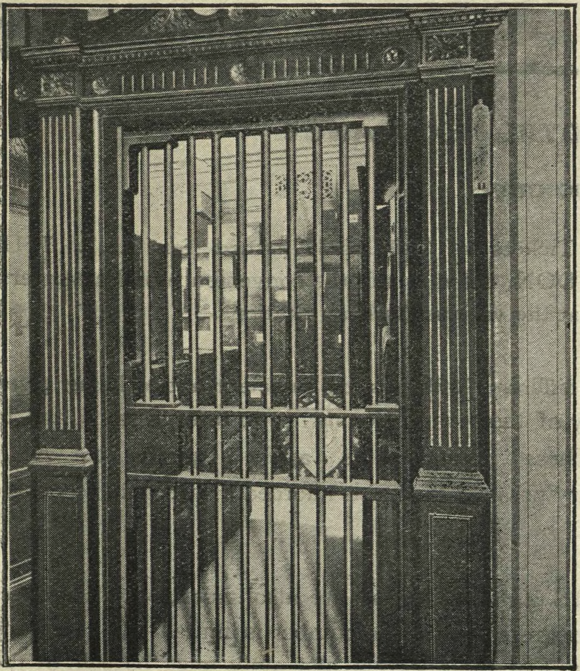
HARRODS SAFE DEPOSIT

AS SAFE AS THE BANK OF ENGLAND



ENTRANCE TO HARRODS' SAFE DEPOSIT

Harrods' Safe Deposit—isolated from the outside world—is absolutely secure against Burglary, Fire, Explosives, or Damp.

Never a day passes but some daring burglary is committed—someone's much valued treasures or heirlooms are stolen; insurance cannot replace these nor cover their loss when sentimental reasons prevail.

Harrods are continually receiving letters from Renters in their Safe Deposit, whose houses have been broken into. Yet they are happily congratulating themselves because their valuables are in safe keeping at Harrods'.

THE most up-to-date Safety Vault in the World. It contains every appliance of mechanical ingenuity known to science, invented to outwit the most accomplished safe breaker, in addition to its absolute security from Fire, Explosives and Damp. Over 30,000 boxes, plate chests, etc., have been collected and delivered to customers during the last 12 years. The list of Renters includes, among other notabilities, an Egyptian Princess, whose deposit in Jewellery was valued at over £600,000.

Ratner's Patent Compo Steel, which is used throughout, has resisted the most perfect drill manufactured. Even if the Stores were consumed by flames the Safe Deposit Vaults and contents would be uninjured.

The main doors guarding the Safes and Strong Rooms have upon them, in addition to three unpickable and gunpowder-proof locks, Time or Clock Locks, so that when the Deposit is closed at night, under no circumstances can the doors be opened again until business hours next morning (not even by those in possession of the keys), or such other time as the clocks may be set for by the order of the Managing Director to cover Sundays and Holidays.

HARRODS SAFE DEPOSIT

SECTION SHOWING INTEGERS

For a nominal Rent Harrods will guard your valuables.

THEIR VAULTS ARE IMPREGNABLE!

The sure and safe method of preventing loss either from Burglary or Fire is to deposit your valuables in Harrods' Safe Deposit—it is impregnable to the most skilful or daring thief, and is constructed to withstand the fiercest fire.

Not only is absolute safety assured, but the mind is set at rest, knowing that one's valuables are in safe custody.

What The Standard says about HARRODS' SAFE DEPOSIT

" It is satisfactory to note that the steps taken by the well-known West End establishment, Harrods, to meet this requirement in their section of the metropolis has met with well-merited success. 'It is difficult to estimate the amount of wealth in our keeping,' said the manager of their Safe Deposit Department. 'The depositors do not always take us into their confidence, but we learn something occasionally through the inquiries of the insurance companies. During the trouble in Portugal we had a dress-box brought here which was filled with gold plate. Now and again a depositor will display the contents of a chest. During the Coronation festivities this happened in the case of the sister of the Khedive of Egypt, who showed me and allowed me to handle some of the finest pearls in the world, amongst which were specimens as large as pigeons' eggs. She showed me, amongst other things, the black pearls presented to her by the late King Edward on his return from India. Again, just before the Russo-Japanese war Prince David Beboutoff, when negotiating a loan in this country, deposited here share certificates worth close on a million of money. This was only one deposit out of thousands which take place every year. We have had the title deeds, securities, and other property lodged here of fifty people who have died and whose property has been valued for probate at upwards of £5,000,000.' "

HARRODS' MODEL DEPOSIT

" An inspection of Messrs. Harrods' Safe Deposit Department is a revelation of fire and burglar resisting devices. The most cunning thief might as well try to wrest valuable mineral from the moon as steal gold from these vaults, which are a maze of time-locks, steel doors, steel and wrought iron bars, joists, and floors, whilst, outside, the arrangements for swamping the outer skin of the premises with water are perfect. These stores are distinguished as being the first in this or any other country to add to their other conveniences a Safe Deposit Department."

Better than Owning a Car

Harrods annual Motor Hire Contract ensures all the benefits of a car without the risks and annoyances attached to owning one.

A first-class car is provided, the chassis of which is fitted to a body to suit individual tastes.

A reliable chauffeur, clothed to your own tastes, is always at your service night and day, for you have call, if necessary, on the whole organisation.

The inclusive charge for a new car is from £450 per annum (special terms for old cars) which works out at slightly under 25/- per day.

Payments do not commence until one month after the contract starts.

Harrods' new Garage at Draycott Avenue, S.W. is now open and contracts can be entered into without delay.

1912 Silent-Knight Daimlers are specialised in.

May our Motor Hire manager call and give full particulars of this ideal plan and arrange, if desired, a free trial?

Harrods' City Office & Depôt

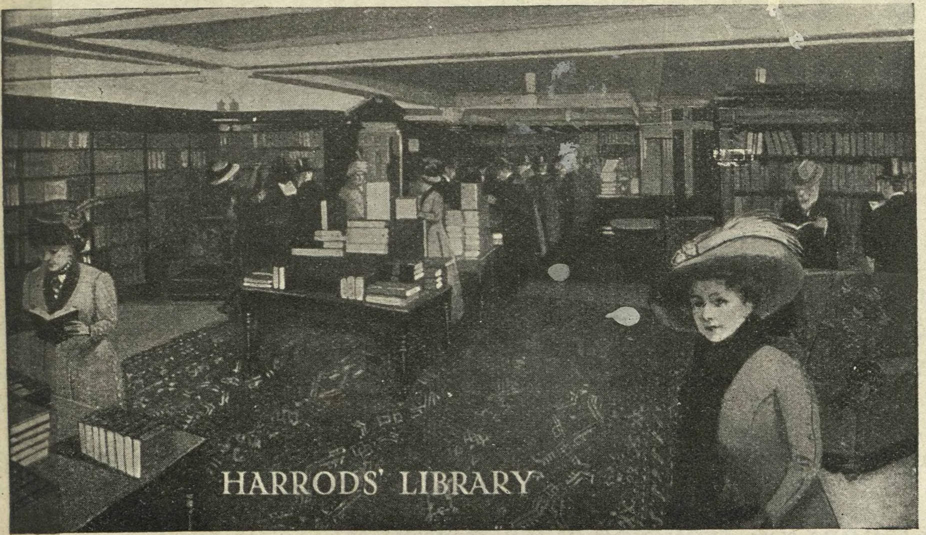
96 Queen Victoria Street, E.C.
And 35 Bread Street.

Larger and more commodious Offices have now been opened at the above address for Harrods' City Depôt.

A Centre in the heart of the City for Gentlemen who wish to order from Harrods, but find it inconvenient to visit the Establishment in Brompton Road.

Harrods' City Order Office is fully equipped and staffed to render valuable service to the busy City man. Competent persons are in charge who know all the ramifications of the Stores and can give practical assistance and advice. The Office is provided with the current Catalogues and Booklets, and being in direct Telephonic Communication with Headquarters, orders can be 'phoned through and executed without delay.

Harrods Circulating Library



Six Reasons why you should subscribe to Harrods Circulating Library in preference to any other.

1. There is no better Book Service.
2. The Terms of Subscription are extremely low, ranging from 20/0 a year
3. The range of choice allowed is unusually wide, and equal facilities exist for borrowing English and Foreign books.
4. The well-furnished Library is in the building at which your shopping is done. A great convenience and a saving of much time.
5. You will be able to buy excellent copies of the books you want, taken from the Library shelves, at very low prices. Lists will be issued periodically.
6. It is at your option to subscribe for the very newest books or, at a lesser cost, for all but the very newest.

TERMS OF SUBSCRIPTION.

This subscription entitles the subscriber to withdraw from the Library all books in circulation, including those of most recent publication. An ample number of copies of such books will be provided, so that subscribers will not have to wait indefinitely for the new books they want.

I.—For the personal exchange of books *as often as required* over the counter, or where carriage charges are met by the subscriber.

GENERAL CATALOGUE OF HARRODS CIRCULATING LIBRARY.

Price 2/6 net.

This work forms an instructive subject index to current publications, and to that part of the older literature which is mostly in demand to-day; the second portion, whilst it meets, of course, the wants of the reader who is looking for "something by So-and-so," also provides an interesting conspectus of the work of an immense number of authors; and the addition to each item of the class to which it belongs and under which it appears in the first part of the work has been described as "a happy conception," which increases greatly the value of the Catalogue.

As a practical and convenient guide to the books which the most intellectual classes in England are reading, this Catalogue is a document of high literary interest.

The advantages of opening and running an Account at Harrods

¶ It makes you in one sense a partner in the world's most complete and up-to-date business.

¶ It ensures your every desire receiving the earnest attention of responsible people, and your slightest complaint the personal attention of the management.

¶ It saves you the bother of paying for numerous articles on delivery or at the time of purchase, and just as the whole of your buying can be done under one roof at Harrods, so you will no longer be troubled with a multitude of bills from different tradesmen—a single account at Harrods will cover the whole week's transactions.

¶ Accounts are rendered promptly, and the housewife wishing to balance her accounts for the week or month is not kept waiting for odd bills to come in.

¶ Drapery goods are freely sent on approval to Customers possessing an account.

¶ Where a deposit is the basis of an account a bonus of one per cent. is allowed upon such a deposit of the value of £20 and upwards, provided each successive deposit be made before the preceding one has been exhausted.

¶ Customers who wish to avail themselves of the convenience of shopping by post, telegraph or telephone (a special telephone staff is on duty all night) will find that an account saves the trouble of making special arrangements for payment on each order.

¶ On receipt of a deposit, or of a satisfactory reference from a bank or a London tradesman, an account can be opened at Harrods. These accounts are rendered and payable every week in town and every month in the country, and special separate accounts (payable monthly) may be opened for drapery and fancy goods.

THE SIMPLIFICATION OF PRESENTATION AT THEIR MAJESTIES' COURTS.

A SOCIAL PILOT.

The latest scheme devised by Harrods to pilot their patrons through the quicksan of social existence will certainly come as a boon and a blessing to a great many peop who realise the endless perplexities, anxieties, and those thousand and one worryin details which are attendant upon the honour of presentation at their Majesties' Court

Indeed, more than half the pleasure of such a command is marred for a great man people owing to the trouble of getting ready. This is especially true in the case of firs presentations or the attendance of Americans or Colonials, who, returning home afte many years' sojourn abroad, are utterly perplexed as to all those unwritten laws tha hedge about the ceremony of making their bow to their Sovereign. For explicit and precise as the rules and regulations issued by the Lord Chamberlain are, they by no means relieve the novice of all trouble, responsibility, and care in the matter.

THE SARTORIAL PICK OF EUROPE.

This, however, is exactly what Harrods is prepared to do. Not only do they unde take to supply all the necessary outfit, from a Court dress and regulation train to th necessary feathers and veil, but they are further prepared to save one all troubl concerning those maddening minor details that entail more care and anxiety tha everything else put together. With the new system there are no more distracte pursuits of gloves that must be of exactly the correct tint, no more wearying discussions as to the type of shoe to be worn. Under Harrods' management all is thought out and considered, weighed and decided; one's own taste being consulted in the first instanc when every possible alternative is placed before one. Indeed, with one interview it i quite possible to end all further discussion and trouble. So it is with everything else for here not only is everything supplied at a moderate cost, but one can take one' choice from a stock that is larger than any other in London, and one that literally does represent the sartorial pick of Europe gathered together and displayed under one roof.

THE ALL-IMPORTANT COURT COIFFURE.

Even in the matter of coiffure one is equally well catered for. For Harrods have an expert staff of hairdressers who are thoroughly versed in the mysteries of Court coiffure and who know to a nicety all that there is to be known concerning the manipulation of hair to suit the latest style of arranging the regulation plumes and veil—a detail of utmost importance that may, and often does, make or mar the whole general effect of many a Court *toilette*, for a badly-dressed head is even more damaging than a badly-fitting dress on such occasions.

Court coiffures are dressed at Harrods at 7/6 per head.

SPECIALLY DESIGNED COURT BOUQUETS.

In the same way Harrods will supply the *dêbutante* with the correct type of bouquet needed for this all-important occasion. For bouquets, like every other detail connected with personal adornment, call for individual care and attention nowadays. Ordering from Harrods one may be satisfied that this is as carefully dealt with in detail as everything else, and the result will be not only a bouquet suitable for the occasion, but one that has been specially designed with an eye to what is becoming to the height, the figure, and the frock of the lady who orders it.

Court bouquets at Harrods are supplied from 10/6 upward.

MOTOR-CARS AND FOOTMEN AT EVERYONE'S COMMAND.

Even when all these details have been arranged, Harrods is still ready to supply luxuriously appointed motor-cars and landaulettes, which are sent out in the care of experienced chauffeurs and footmen who thoroughly understand the ropes, and who are *au fait* with the many regulations that govern the setting down and taking up of their Majesties' guests. On occasion like this it is no small comfort to be able to engage footmen who have season after season performed the same duties, so that there is no fear of confusion, mistakes, or any unnecessary delays.

Harrods' motor-car hire tariff will be sent to anyone on application. For one evening's hire to attend a Court the cost is 2½ gns. and 3 gns.

THE UBIQUITOUS PORTRAIT.

Even in the case of the ubiquitous souvenir portrait of the great occasion Harrods is ready to render valuable assistance. They have a specially fitted-up studio and expert photographers on the premises who make a *spécialité* of this style of portraiture. In this particular, customers who avail themselves of Harrods' complete Court catering will be able to save themselves a good deal of trouble and fatigue, as it is an easy matter to arrange to pay a visit to Harrods' Studio before one's finery is finally sent home, so avoiding the fatigue of visiting a photographer's after the Court is over, when one is tired out and consequently looking anything but at the best advantage.

Harrods' charges for portraits: Boudoir size, £1 13s. for 6 copies; Panel size, £2 12s. 6d. for 6 copies.

MENTAL AND FINANCIAL ECONOMY.

The secret of the success of this complete Court catering lies in the thoroughness with which it is carried out from beginning to end. For, from the moment when the expert designers are first consulted about one's dress, to the concluding visit to the photographer, everything is made easy and pleasant, all the burden and responsibility being lifted from one's own shoulders to that of experts specially trained in the many details that contribute to the success of the whole. Moreover, the plan makes for economy in every direction—economy of time, since the arrangements can be made under one roof and at one visit; economy of expense, since we know that whatever be decided upon will be correct and will necessitate no further outlay at the last moment; and, above all, economy of mental wear and tear. Indeed, so easy is it all that one may be forgiven tending toward a comfortable laziness in regard to social duties. For Harrods' service makes it so simple to avoid unnecessary social fatigue and difficulties that it is not surprising to find every year more and more folk are availing themselves of the facilities which are offered to them.

How Harrods have developed Shopping by Telephone

"WESTERN ONE PLEASE."

SINCE its inception Harrods' Telephone Order Office has proved an unqualified success. Being efficiently organised as a special department, all orders are carefully taken, and the tantalising treatment often meted out to orders by telephone, where they are dealt with in haphazard manner, is entirely avoided.

The staff of Order Clerks is a specially trained force always in attendance—Day and Night—to attend to customers' enquiries and orders.

Orders 'phoned during business hours are promptly executed and dispatched, and those received after business hours are sent by the early morning delivery vans and mails next day.

Nothing goes to Waste when you use PEARS

It is of such complete purity and of such incomparable quality that every particle of it comes into use as SOAP.

Pears

IS NOT MIXED WITH WATER.

A touch or two, well worked up, yields lather enough for face and hands or for shaving.

That is why Pears lasts so much longer than common toilet soaps, indeed it
